PATRIK GRIJALVO (b. 1984)

Patrik Grijalvo is a contemporary artist from Bilbao, Spain. He works with analog architectural photos, assembling layered works from various images of a single piece of architecture. The resulting three-dimensionality derives not from the physical form of his work, but from the shadows, focus, and perspective of his photographs and the buildings that they feature. Grijalvo's work is included in multiple art collections such as Fundación Bilbao Arte, Het Wilde Weten, and the Athens School of Fine Art. He is frequently exhibited at Galería Victor Lope in Barcelona, Spain.
