Heather Gaudio Fine Art hosted its grand opening event in Greenwich, Connecticut at 382 Greenwich Ave on Thursday, September 21 with a rooftop cocktail celebration and a new exhibition titled, Making Their Mark: 7 Women in Abstraction. The exhibition included paintings, works on paper, and sculpture by seven women artists, all of whom form part of the gallery's roster. These artists share a dynamic approach to creating their works, with each paying unique attention to the materials and their properties.

Their works carry distinct, non-figurative aesthetic perspectives that present current themes and preoccupations, such as our relationship with nature, its physical characteristics, cultural contexts, evocations of time and place, and references to interior states of being. Artists include Hyun Jung Ahn, Jessica Drenk, Ann Gardner, Kathleen Jacobs, Jae Ko, Kathleen Kucka, and Maya Makino. For more information please visit HGFA online.
