FERNANDO DAZA (b. 1979)

The works of Seville-born Fernando Daza are brilliant explorations of the interactions between color, light, and texture. His medium of choice is monochromatic paper that he tears by hand and then layers onto canvases of varying shapes and sizes. Many of his pieces are diptychs consisting of two similarly shaped canvases juxtaposed with highly contrasting colors. Daza received a Bachelor of Fine Arts from the University of Seville in 2003 and subsequently participated in a printmaking program at the University of Athens. He has participated in many solo and group shows in cities such as Madrid, Seville, Cádiz, and Lisbon, and his works are included in numerous public and private collections.
